

CPD & Learning Opportunities

Curriculum Design in PE – Intent and Implementation

This course will help you begin to design and implement a curriculum that leads to students' development in the key aspects of Physical Education. The course will look at three areas:-

- **The Why** – Why is movement important to child development?
- **The What** – What needs to be taught to satisfy National Curriculum demands and the Intent of your individual school?
- **The How** – Considering the most effective research-based pedagogies to ensure learning in PE

Key Learning Outcomes

- Developing a clear Intent for your school
- The key procedural and semantic knowledge needed in PE – movement, tactics and strategy, leadership, healthy lifestyles and personal, social and emotional literacy
- How to effectively sequence a curriculum
- Progress towards end points
- Effective questioning
- Analysing activities to identify required knowledge
