

‘Smart Moves’ Motor Skills Development Programme for Children with Coordination Difficulties

This one-day workshop will provide an overview of the flexible Motor Skills Development Programme which has been designed to support children in KS1 and KS2 with coordination difficulties.

The programme will include hands on activities and working directly with pupils, all of which will prepare participants to be able use the programme within their settings. Workshop participants will be provided with a complete Smart Moves Pack which includes:

- The Movement Abilities Profile (screening tool)
- USB of resources to support and design effective and tailored programmes for the children
- More than 100 fun colourfully produced activities and games related to the PE curriculum
- User manual

During the workshop practitioners will be able to: Consider and experience how to use the Smart Moves Motor Skills Programme to support fundamental movement skills in children with SEND in particular those with Developmental Co-ordination disorder (DCD)/Dyspraxia.

Target Audience:

PE Leads, TAs/STAs/HLTAs, Occupational Therapists
